## OUR CLIENTS

## OUR SERVICES & CAPABILITIES

### CONCEPT CREATION

Depending on the scope and budget proposed, this team makes sure ideas are good, new, implementable and remain on budget. Our creative team will be at your disposal at any time during the pre production phase.

### PRE PRODUCTION

Shot listing, call sheets, illustrations and design, story boarding, location scouting, choosing the most suitable directors and DOPs for the job, talent casting, project management, wardrobe, prep sheets...etc.

### PRODUCTION

All the work that goes into creating the video production: location set up and management, directing, DOP work, production management, complete crew, gaffers, audio team, grip...etc. Kiwi Media Solutions has a highly professional team, and owns some of the most up to date production equipment.

### POST PRODUCTION

At Kiwi Media Solutions, we have top of the line editing suites with very talented editors, color correction studios, 5.1 Audio Suites, graphics suites, music research and composition department, voice over recording...etc.

### VR PRODUCTION

Our team has more than 18 years of experience in visual arts with focus on game development. With a background in architecture, some of our team members started their career creating computer-generated environments for architects.

One of our most notable members, Hani Abu Ghazaleh, was responsible for developing the look and feel of the games as the Art Director in Ubisoft Abu Dhabi. This includes crafting new experiences and maintaining the brand identities of the games to produce visuals on multiple platforms.

*We look forward to seeing what our team will create for you.*

## OUR TEAM

We have put together a dream team for our projects. This team is the same team to work on Google Street view and Petra with HH Queen Rania. Together we have gathered over 50 million views with content we have created for Google, IKEA, Starbucks, USAID, Government of Dubai, Red Bull and many more.
