# Zenobia Production Fields

## Documentaries

Arab Zenobia Productions is an international and Regional award winning documentary production company. We create dramatic and powerful documentaries featuring real stories with visually stunning footage. Our goal is to create and tell unique stories, leaving a lasting impression with your viewers.

Arab Zenobia Documentaries where screened on the most watched regional Channels such as al Jazeera main channel , Documentary and International channel, MBC and al Mayadeen

## Corporate Videos

We can deliver exactly what is needed to bring your brand to life. Corporate videos with real impact!

Corporate video production should use just the same production values as commercials and films, we don't believe that it is a lower style of film-making. The team that devise ideas for our commercials are the same individuals that use their creativity to get your message heard in corporate videos, whether it's within your company or to potential investors.

It is these production values that make our corporate videos look so different to our competitors. We take a lot of time to understand what your messages are, your brand, style, attitude, everything that makes your company who it is. We then use our expertise to come up with ideas and concepts that will wake up your audience, not only informing them but actually entertaining them at the same time, ensuring your corporate video production is the best it can possibly be.

## **Motion Graphics & Animation**

### - Motion Graphics Production

We produce a whole range of motion graphics and animation, everything from title sequences for film and TV, idents and stings for broadcast channels and simple animated identities for the web and corporate communications.

In addition to our boundless levels of creativity, we have the technical know how and computer firepower to get the job done, quickly and effectively. In short, we are one of London's leading motion graphics companies.

### - Animation

we also pride ourselves on our experience as an animation company capable of creating hi-end 3D animation suitable for TV commercials, promos and web applications. We can

design and create complete animated characters to demonstrate products or to add a bit of irreverent personality to your brand film

### **Explainer videos**

Using a combination of motion graphics and animation, our explainer videos are the perfect way to demonstrate to your audience how your company, website or product works. Using screenshots of your website or simply text, icons and illustrations to tell the story, explainer videos are a great way of conveying complex information in a clear, concise, informative and entertaining way.
